

Put your business on every mobile phone with a goMobi mobile website!

Millions of people are now using the mobile Web when on-the-go.

Don't miss out on customers who want to visit your business from their phone!

- ▶ **Connect with mobile customers**
Faster access to key information like Call us, Find us and Opening hours
- ▶ **Convert leads**
Mobile-friendly features like Reservations and Coupons turn traffic into customers
- ▶ **Drive traffic & improve your search rankings**
goMobi works well on all phones and makes it easier to find you on search directories

The goMobi easy Set Up Assistant puts you in charge of your site, it only takes minutes to get started and can be updated anytime. goMobi is the most effective way to engage your mobile customers!

Why goMobi?

Did you know most websites won't work on a mobile phone? They're slow to load, hard to view and don't offer the right kind of experience for on-the-go customers. That's why you need a goMobi mobile website:

- ✓ **Compatible with all phones so you know it works**
- ✓ **Gets you started in minutes with it's easy Set Up Assistant**

Go to:
<http://www.goMobi.com>

Benefits for your Business:

- **Increases traffic** - with improved visibility on search engines like Google, Yahoo and Bing
- **Increases repeat visits** - satisfied customers come back
- **Improves conversion rates** - of visitors into customers; with features such Call Us, Find Us, and Tell-A-Friend.
- **Increases Revenue** - through features like Coupons and Reservations.

Benefits for your Customer:

- **Offers a good mobile experience** - on all phones, including high-end smartphones, mid range and budget phones.
- **Presents just the right information** - for convenience and utility when needed most.
- **Is fast and user friendly** - and displays information up to *6 times quicker* than on your full website

Your customers are mobile, you need a goMobi mobile website!

A goMobi mobile website is the right solution for your business to engage with customers on their mobile phone.
